The New Definition of Capital.....	1
Capital Allocation and Management Defined.....	2
The Significance of Capital Allocation and Management.....	4
The Capital Management Cycle	5
Traditional and Emerging, Yet Problematic, Approaches to Allocating Capital	8
First Come, First Served and Political Approaches	8
History-Based and Balanced Scorecard Approaches	8
Rolling Capital Approach.....	10
Characteristics of a Best-Practice Process	11
Common Challenges.....	12
Implementation Considerations	14
References	14
2. Establishing the Framework.....	15
Framework Basics.....	15
A New Allocation Framework for Avera Health.....	16
Objectives	17
Avera Health’s Objectives.....	18
Principles	18
Equal Access to Dollars	19
Standardized Analytics, One-Batch Review, and Portfolio Decision Making.....	21
A Governed and Strategic Decision-Making Process.....	22
Process Governance	22
Process Redesign.....	23
Governance Structure.....	23
Centralized Versus Decentralized Governance	26
Sample Governance Structures	27

Connected, Calendar-Driven Planning and Decision Making	28
Integrated and Portfolio-Based Planning	29
The Planning Component: From Strategic Planning to Financial Planning	31
Preplanning for Multiyear, High-Dollar Projects	33
The Implementation Component: From Strategic and Financial Planning to Capital Allocation and Budgeting.....	34
Putting It All Together.....	35
An Integrated Calendar	37
Calendar Components	38
Communicating and Maintaining the Calendar	39
Capital Management Council Schedule.....	40
Implementation Considerations	41
References	43
3. Determining the Capital Constraint	49
Calculation Components	50
Cash Flow	51
Debt Proceeds	52
Philanthropy	52
Working Capital.....	53
Principal Payments	54
Carryforward Capital	54
Cash Reserve Requirements.....	56
Other Sources and Uses of Cash.....	58
Contingencies	58
System Capital Contingency	58
Large-Project Planning Contingency	59
Putting It All Together.....	60
Defending the Constraint.....	60
Leasing.....	60
Information Technology.....	63
New Era Calls on Cash.....	64
Implementation Considerations	64
References	65
4. Defining the Capital Pools	67
Threshold and Nonthreshold Capital.....	68
Funding the Pools	69

Managing and Using the Capital Investment Pools.....	72
Threshold Capital Pool.....	72
Nonthreshold Capital Pool.....	73
Contingency Capital Pool	73
Concepts in Practice.....	74
Implementation Considerations	75
Reference.....	76
5. Allocating and Evaluating Nonthreshold Capital.....	77
Allocation Principles.....	77
Allocation Measures	78
Allocation to Non-Revenue-Producing, Nonprofitable, or Small Operating Units	81
Small Health System Example.....	81
Large Health System Example.....	81
When Allocated Nonthreshold Capital Is Considered Insufficient.....	82
Evaluating Nonthreshold Capital Projects	84
Implementation Considerations	87
6. Evaluating Threshold Capital Investment Opportunities.....	89
One-Batch Review	89
Business Plans and Standardized Formats or Templates	90
Information Required of All Threshold Capital Initiatives	91
Quantitative Analysis Using Corporate Finance–Based Techniques	93
Return-on-Investment Methodologies.....	94
Net-Present-Value Analysis.....	96
Up-Front Investment Requirements	97
Projection of Free Cash Flows	99
Organizational Hurdle Rate	99
Terminal Value of a Project.....	100
Other Issues Related to Net-Present-Value Analysis.....	102
Considering Risk Through Expected-Net-Present-Value Analysis	102
Qualitative Analysis.....	108
Criteria Weighting.....	110
Implementation Considerations	112
References	113
7. Selecting Threshold Capital Projects Using a Portfolio Approach.....	115
Quantitative Project Ranking.....	115

Integrating Qualitative Information	116
Balancing Margin and Mission.....	118
Implementation Considerations	121
8. Managing the Postallocation Process	123
Funding Review and Revalidation	123
Decision Making Related to Postapproval Project Costs	124
Timing of Capital Spending	127
Handling Deferred Capital Spending	128
Unspent Allocated Capital.....	129
Emergency and Off-Cycle Capital Requests	130
Application of Contingency Dollars	131
Continuous Project Monitoring	131
Responding to Performance Results.....	133
Comprehensive Capital Budget Management.....	134
Implementation Considerations	138
Reference.....	138
9. Making It Happen and Keeping It Going	139
The Role of Education.....	139
The Role of Best-Practice Tools.....	142
Support of Optimal Allocation Decisions.....	144
Monitoring of Capital Spending.....	147
The Role of Transparent Communication.....	148
The Role of a Disciplined Implementation Plan and Time Frame.....	150
Implementation Considerations	152
Closing Comments	155
About the Author.....	157
