INDEX

Note: Italicized page locators refer to exhibits.

AARP, 541
Absolute needs, 200
ACA. See Patient Protection and Affordable Care Act
Accountable care organizations (ACOs): definition of, 280; establishment of, 14; future of healthcare and, 281–82
Account management department: definition of, 464
Account managers, 464
ACHE. See American College of Healthcare Executives
ACOs. See Accountable care organizations
ACS. See American Community Survey
Actions: marketing, 505, 511–12
Action stage: of change, 165, 318, 413, 414, 414
Acupuncture, 82, 557
Acute conditions, 277; displaced by chronic conditions, 232–33, 233–34
ADI. See Area of dominant influence
Administrative records: definition of, 532
Administrative units, 96, 97–99
Admission rates, 207, 213, 216, 217
Advertising, 68, 76, 296; of consumer health products, 83; definition of, 9, 46; direct-response, 362; direct-to-consumer, 361–62; growth of, 10, 11; hospital, sample print advertisement, 72; institutional, 352; low-key, 79–80; marketing as, 23, 33; in matrix for promotional decision-making, 367; objectives of, 351–52; personal sales vs., 352; by pharmaceutical industry, 84; product, 352; referral agencies and, 73
Advertising agencies, 459
Advertorials, 199
Aetna Insurance, 371
Affinity marketing, 397–99, 416
Affinity programs, 391, 397; “perks” offered by, 398–99; senior, five keys for success, 400–401
Affordable Care Act. See Patient Protection and Affordable Care Act
African Americans: population distribution in Memphis, Tennessee, in 2010, 150
Age: healthcare utilization and, 207
Agencies, 449; advertising, 459; à la carte, 459; definition of, 459; functions performed by, 459; selecting, guidelines for, 460–62; specialty, 459
Agency for Healthcare Research and Quality (AHRQ): practice-based population health defined by, 252
Agency want list: developing, 461
Aging services, 555
AHA. See American Hospital Association
AHRQ. See Agency for Healthcare Research and Quality
Alternative evaluation: consumer decision-making and, 162
Alternative newspapers, 365
Alternative therapies, 115, 118, 119, 557, 559
Alternative (or complementary) therapy practitioners, 193
Alzheimer’s disease, 193
AMA. See American Medical Association
Ambulatory care. See Outpatient care
Ambulatory payment classification (APC), 190
American Cancer Association, 409
American Cancer Society, 203, 204, 533, 541, 542
American College of Healthcare Executives (ACHE): top issues survey of hospital CEOs, 466; member surveys of, 533
American Community Survey (ACS), 101, 528, 532–33
American Heart Association, 204, 533, 541
American Hospital Association (AHA), 541; registry of, 531–32
American Marketing Association, 35
American Medical Association (AMA), 85, 185, 541; member surveys of, 533; on per capita spending on healthcare, 239; physician advertising issues, 25
American Psychiatric Association, 190
Angie’s List, 421
Annual budget, 464, 470
Antivaccination movement: social media misinformation and, 442–43
APC. See Ambulatory payment classification
Appeal: changing type of, 339–40
Area Health Resources File, 540
Area of dominant influence (ADI), 102, 526
Argyle Social, 440
Art director, 463
Asia: marketing medical tourism in, 145–47
Assisted living centers: nondurable goods provided by, 185
Assisted living facilities: marketing by, 73–74, 91
Assumptions, 270, 337, 505, 506
AstraZeneca, 409
Attention: observational learning and, 320
Attitudes, 160–61, 207
Audience-centered perspective: in health communication, 334
Audience “personas”: creating, 436
Audience(s), 436; in communication process, 330; concept testing and, 341–42; defining, in social marketing campaign, 375; definition of, 5; profiling, 339. See also Healthcare audiences; Target audience
Audits: external, 275, 276, 277, 509, 515; internal, 274–75, 276, 508–9, 515, 524; of market, 505
Average length of stay: definition of, 215
Awareness: building, 31; consumer decision-making and, 162; definition of, 351
Baby boomers: changing patient characteristics and, 232; focus on consumers vs. patients and, 244; healthcare emphasis and, 30; health communication and, 311; innovative approaches and, 152; patient-centered approach favored by, 160, 234; patient-customer epitomized by, 55; place strategies and, 296; retail medicine and, 184; shift from medical care to healthcare and, 237–38
BackTweets, 440
Banner ads, 77–78, 371
Baseline data, 274–76
Bayer, 82
“Bedside manner,” 229
Behavioral change approach: to market assessment, 164–65
Behavioral Health, United States, 539
Behavioral health providers: marketing activities of, 80
Behavioral health services: lifestyle analysis for predicting use of, 221–23
Behavioral intentions, 316
Behavioral Risk Factor Surveillance System, 240
Behavior change: PRECEDE-PROCEED framework and, 336; stages in, 318
Behavior constraints, 332
Benefit segmentation, 154, 155, 166
Berkowitz, E. N., 43, 329
Billboards, 372, 384, 385
Biofeedback, 82
Biological factors: influencing demand, 205–6
Blogger, 421
Blogs and blogging, 6, 409, 419, 420, 421, 426, 443, 444
Blue Cross, 124
BoingBoing, 421
Booths: exhibit, 359
Brand: definition of, 297; establishing, 301–2; true test of, 300; updating, 300
Brand associations, 298
Brand identity: definition of, 297; establishing, steps in, 299; intent of, 297–98; reinforcing, 300
Branding, 303; definition of, 297; as a strategy, 297–300
Brand-name drugs, 86
Budgeting: for marketing, 394, 464–66
Bundled services, 20
Bureau of Health Professions, 540
Bureau of Labor Statistics, 539
Burnout: physician, 551
Business aspects of healthcare: resistance to, 23
Business database systems, 541
Business goals: supporting, 38
Business strategy, 267
Business-to-business marketing, 384, 390–93, 416; definition of, 390; occupational health program promoted with, 392–93
Buyers: healthcare decision-making and, 161
BuzzFeed, 421
Cable television, 364, 373
Call centers: definition of, 363
Call to action, 269
Campaign-specific budget, 464, 470
Campaign spokesperson: definition of, 90
Capitated payment, 14
Cardiac catheterization: calculation of demand for, 537–38, 537–38
Cardiac surgery, 142
Cardiologists: sales of retail goods by, 185
Care: levels of, 174, 177–78, 178
Case studies: business-to-business marketing used for promoting occupational health program, 392–93; capturing an emerging market, 108–11; capturing the “older adult” market, 47–49; community health needs assessment to improve patient care, 257–58; determining consumer perceptions of obesity, 316–18; determining the effective market, 121–24; direct-to-consumer advertising used to increase drug sales, 361–62; establishing a brand, 301–2; generating population data for marketing planning, 534–35; heart health promoted using customer relationship marketing, 405–8; Hello Health, 439; hospital strategy development, 291–93; hospital takes its grand opening to Second Life, 410–11; integrated marketing strategy, 381–83; internal marketing at SouthCoast Rehabilitation Center, 395–97; is there really a market for it?, 127–29; lifestyle analysis used to predict use of behavioral health services, 221–23; low-intensity marketing, 77–79; marketing an urgent care center, 175–76; marketing inventory, 271–72; marketing medical tourism in Asia, 145–47; marketing planning for a new program, 514–17; market share analysis for a physician practice, 483–85; measuring return on investment for a marketing campaign, 468–69; methodology for estimating health services demand, 536–38; quantitative and qualitative research applied to community health initiative, 490–92; sample goals, objectives, and actions, 512; state of the practice, 283–84; SWOT analysis for a medical clinic, 287–88; Texas WIC program, 378–80; using consumer engagement to encourage wellness behavior, 157–59; Virginia Blood Services’ Facebook events, 424–25
CATI. See Computer-assisted telephone interviewing
Causal research, 481
Cause-and-effect analysis, 486
CDC. See Centers for Disease Control and Prevention
Cell phones, 419
Census block groups, 100–101
Census blocks, 101
Censuses, 543; accessing data from, 528; decennial, 527, 528, 539; definition of, 101, 527; economic, 528–29
Census tracts, 100, 536
Centers for Disease Control and Prevention (CDC), 81, 203, 240, 526, 529, 540; disease surveillance activities of, 531; on health communication roles, 309; on levels of communication, 307–8; role of, 115; surveys of, 532
Centers for Medicare & Medicaid Services (CMS), 14, 189, 214, 250, 281, 529; “shared savings” initiative, 257
Central America: state-of-the-art healthcare systems in, 141
Champions: of marketing campaigns, 451, 470
Change: stages of, 318, 413–14, 414
Channel barriers to communication, 331
Channel management: definition of, 295
Channel(s): in communication model, 44; in communication process, 328, 330, 343; definition of, 295; identifying, in social marketing campaign, 375–76
Charts, 488
China: demand for health services in, 140
Chiropractic adjustments, 557
CHNA. See Community health needs assessment
Cholesterol: testing recommendations, 203
Chronic conditions/diseases, 277, 556; diseases of civilization and, 236; shift from acute conditions to, 232–33, 233–34
Cigarette brands: physician endorsements and, 25
Cinema advertising, 372
Cisco Systems, 410
Cities: as political or administrative units, 98
City governments: as health data sources, 540
Claritas, 541
Cleveland Clinic, 298, 410; establishing brand for, 301–2; Cleveland Clinic Health System, formation of, 301
Clients, 54, 159, 166; definition of, 53, 54, 138, 313; in marketing process, 462
Clinical services: nonclinical services vs., 180–81
Clinical trials for new drugs: conducting, overseas, 141
Clinicians: as customers, 138; marketing activities of, 79–80
CME. See Continuing medical education
CMS. See Centers for Medicare & Medicaid Services
Coding systems: definition of, 188; in healthcare, 188–91
Cognitive constraints, 332
Collateral materials, 48, 350
Collins, Jim, 61
Columbia/HCA, 408
Co-marketing, 548
Commercial data vendors: definition of, 102; as health data sources, 541, 542, 543; registration systems of, 529–30, 531; surveys of, 533; synthetic data and, 536
Commercial insurance: employer-sponsored, 124
Communicable Disease Center. See Centers for Disease Control and Prevention
Communication: definition of, 42, 306; levels of, 307–8, 343, 344; in matrix for promotional decision-making, 360; nature of, 306–9; purposes of, 343, 344; theories in marketing, 43–44. See also Health communication
Communication, barriers to, 330–32, 343, 344; channel barriers, 331; social and cultural barriers, 331–32; transmission barriers, 330–31
