

BRIEF CONTENTS

Foreword	xv
Preface	xvii
Acknowledgments	xxi
Chapter 1 Public Health: Prevention, Promotion, Protection	1
Chapter 2 Social Determinants of Health (Part 1): Where You Live Impacts Your Health	34
Chapter 3 Social Determinants of Health (Part 2): Keys to Improving Community Health	58
Chapter 4 Prevention, Challenges, and Population Health	86
Chapter 5 The Role of Data in Population Health.....	106
Chapter 6 Epidemiology: The Basic Science of Public Health.....	148
Chapter 7 Descriptive Epidemiology: The Significance of Person, Place, and Time	187
Chapter 8 Epidemiologic Measures of Disease Burden and Disease Frequency	227

Chapter 9 Analytic Epidemiology: Steps Toward Establishing Association and Causation Between Exposure and Disease.....	248
Chapter 10 Infectious Disease Epidemiology	272
Chapter 11 Community Health Assessment: A Public Health Duty.....	331
Chapter 12 Population Health: A Culture of Health Improvement Approaches.....	364
Chapter 13 Principles of Population Health Management.....	386
Chapter 14 Population Health Improvement: A Systems Approach	421
Chapter 15 Keeping Communities Healthy During the COVID-19 Pandemic	440
Appendix: Internet and Social Media Resources	483
Glossary	487
Index	503
About the Author	505

DETAILED CONTENTS

Foreword	xv
Preface	xvii
Acknowledgments	xxi
Chapter 1 Public Health: Prevention, Promotion, Protection	1
Learning Objectives	1
Introduction	2
<i>Public Health</i> Defined	2
The History of Public Health	4
The Public Health Mission, Infrastructure, and Essential Services	5
The Distinction Between Public Health and Healthcare.....	13
Public Health Achievements and Initiatives.....	14
Public Health and Politics.....	23
Population Health and Public Health.....	24
Key Chapter Points	27
Discussion Questions.....	29
References.....	29
Chapter 2 Social Determinants of Health (Part 1): Where You Live Impacts	
Your Health	34
Learning Objectives	34
Introduction	35

Health Determinants	36
Social Determinants of Health (SDoH)	37
Equality versus Equity.....	44
Social Justice	47
Case Study: Childhood Lead Poisoning in a Refugee Resettlement	
Community	47
Key Chapter Points.....	52
Discussion Questions.....	54
References.....	54
Chapter 3 Social Determinants of Health (Part 2): Keys to Improving	
Community Health	58
Learning Objectives	58
Introduction	59
Collective Efficacy, Social Cohesion, and Social Capital: Keys to	
Improving Community Health	59
Culture of Health Initiative.....	62
Health in All Policies (HiAP)	65
Social-Ecological Model (SEM)	68
Field Model of Health and Well-Being.....	72
Social Gradient of Health.....	73
Population Health Outcomes.....	75
Case Study: COVID-19 In Racial and Ethnic Minority Populations.....	76
Key Chapter Points	79
Discussion Questions.....	81
References.....	81
Chapter 4 Prevention, Challenges, and Population Health	86
Learning Objectives	86
Introduction	87
Prevention in Public Health.....	87
Public Health Challenges and Approaches	90
Prevention and Population Health	99
Key Chapter Points	101
Discussion Questions.....	102
References.....	102
Chapter 5 The Role of Data in Population Health	106
Learning Objectives	106
Introduction	107
Public Health Data	107

Healthcare Data.....	133
Health Information Privacy and Security	136
Key Chapter Points	138
Discussion Questions.....	141
References.....	141
 Chapter 6 Epidemiology: The Basic Science of Public Health	148
Learning Objectives	148
Introduction	149
<i>Epidemiology</i> Defined.....	149
Questions and Goals.....	151
Quantitative and Qualitative Data	152
Frequency of Disease.....	154
Epidemiologic Tools.....	159
Case Study: Ebola Viral Disease Outbreak	175
Key Chapter Points	180
Discussion Questions.....	182
References.....	183
 Chapter 7 Descriptive Epidemiology: The Significance of Person, Place, and Time	187
Learning Objectives	187
Introduction	188
The Development of Epidemiology.....	188
Case Study: John Snow and the London Cholera Epidemic	188
Person, Place, and Time	193
Descriptive Epidemiology Indicators and Methods	204
Case Study: <i>Pneumocystis</i> Pneumonia—Los Angeles.....	206
Epidemiologic and Demographic Transitions.....	209
Key Chapter Points	221
Discussion Questions.....	223
References.....	223
 Chapter 8 Epidemiologic Measures of Disease Burden and Disease Frequency	227
Learning Objectives	227
Introduction	228
Crude Rates	228
Specific Rates	236
Adjusted Rates	240
Key Chapter Points	242
Discussion Questions.....	243

Answers to Chapter Exercises.....	244
References.....	245
Chapter 9 Analytic Epidemiology: Steps Toward Establishing Association and	
Causation Between Exposure and Disease.....	248
Learning Objectives.....	248
Introduction.....	249
Ethical Conduct in Research.....	250
Case–Control Studies	252
Cohort Studies	255
Experimental Studies	260
Bias and Confounding.....	263
Hill’s Criteria.....	266
Key Chapter Points.....	267
Discussion Questions	269
Answers to Chapter Exercises.....	269
References.....	270
Chapter 10 Infectious Disease Epidemiology	
Learning Objectives.....	272
Introduction.....	273
The Epidemiologic Triangle	273
Infectious Disease Transmission	275
Tracking Infectious Disease Occurrence.....	277
Epidemic Curves	277
Disease Outbreak Investigation.....	280
Case Study: Salmonellosis Outbreak.....	289
Public Health Interventions.....	294
Emerging Infectious Diseases.....	296
Case Study: Zika Virus	298
Case Study: Measles Outbreak.....	307
Case Study: COVID-19	313
Key Chapter Points.....	326
Discussion Questions	327
References.....	328
Chapter 11 Community Health Assessment: A Public Health Duty.....	
Learning Objectives.....	331
Introduction.....	332
Community Health Assessment (CHA).....	340
Community Health Improvement Plan (CHIP)	343

Issues in Data Collection and Analysis for Community	
Health Assessment.....	350
Community Benefit Standard.....	351
Improving the Health of a Community Takes a Village	354
Key Chapter Points.....	356
Discussion Questions	359
References.....	360
Chapter 12 Population Health: A Culture of Health Improvement Approaches	364
Learning Objectives.....	364
Introduction	365
A Population Health Approach.....	365
Managerial Epidemiology: Population Health Tool for the Healthcare Setting	377
Population Healthcare Management Model.....	379
Key Chapter Points.....	381
Discussion Questions	382
References.....	383
Chapter 13 Principles of Population Health Management.....	386
Learning Objectives.....	386
Introduction	387
Defining Population Health Management (PHM).....	388
PHM Drivers	388
PHM, Population Medicine, Population Health, Public Health: An Issue of Semantics?	391
PHM Risk Stratification	392
PHM Measures.....	394
CDC PHM Initiatives.....	396
PHM Approaches.....	400
Data-Driven Approach to PHM	407
Key Chapter Points.....	413
Discussion Questions	415
References.....	415
Chapter 14 Population Health Improvement: A Systems Approach	421
Learning Objectives.....	421
Introduction	422
Moving Forward with Population Health Management (PHM)	422
Addressing PHM Challenges Through Systems Thinking	427
Tools for Implementing a Systems Approach	430

Key Chapter Points.....	435
Discussion Questions	436
References.....	437
 Chapter 15 Keeping Communities Healthy During the	
COVID-19 Pandemic	440
Learning Objectives.....	440
Introduction.....	441
Descriptive Epidemiology of COVID-19	441
Case Study: COVID-19 Outbreak	441
COVID-19 and SARS-CoV-2	452
COVID-19 Symptoms and Transmission	454
Reproduction Number	455
Herd Immunity and Interventions.....	456
Preparedness and Response.....	458
COVID-19 Implications	460
Effective Tools	461
COVID-19 Vaccines	464
Potential Pandemic Outcomes.....	465
COVID-19 Variants and Surges	467
Public Health Lessons.....	468
COVID-19 Data Resources.....	469
Hospitals and Population Health Approaches During the	
COVID-19 Pandemic	472
Key Chapter Points.....	474
Discussion Questions	476
References.....	476
 Appendix: Internet and Social Media Resources
