

# DETAILED CONTENTS

*Acknowledgments* ..... xvii

## **Part I Concepts, Principles, and Applications**.....1

### **Chapter 1.** An Introduction to Managerial Epidemiology..... 3

*Steven T. Fleming*

Epidemiology and Health Services Management..... 3

How This Book Is Organized..... 4

This Book's Case-Study Approach to Managerial

Epidemiology ..... 9

Reference ..... 9

### **Chapter 2.** Population Health..... 11

*Steven T. Fleming*

What Is a Population?..... 12

What Are Population Health Outcomes? ..... 13

What Are Health Determinants? ..... 14

Age and Population Health ..... 15

Socioeconomic Status and Population Health ..... 16

Race or Ethnicity and Population Health..... 17

Gender and Population Health ..... 19

Marital Status or Religion and Population Health ..... 21

Policy Interventions ..... 21

Case Study 2.1. Infant Mortality Disparities by

Race and Ethnicity..... 22

Summary ..... 26

References..... 26

### **Chapter 3.** Infectious Disease Epidemiology ..... 29

*Steven T. Fleming, Kathleen Winter, and*

*Glyn G. Caldwell*

Agent, Host, and Environment..... 30

Transmission ..... 33

	Healthcare-Associated Infections .....	36
	Case Study 3.1. NHSN Tracking of Surgical Site	
	Infections .....	38
	Prevention.....	42
	Case Study 3.2. Hepatitis B Outbreak at a	
	Skilled Nursing Facility .....	46
	Outbreak Investigation.....	47
	Summary .....	52
	End-of-Chapter Case Exercises.....	52
	References.....	54
<b>Chapter 4.</b>	Measuring and Interpreting Morbidity .....	61
	<i>Steven T. Fleming and F. Douglas Scutchfield</i>	
	Population Health.....	61
	The Nature and Definition of Disease.....	63
	The Natural History of Disease .....	64
	Sources of Morbidity Data.....	65
	Measuring Morbidity.....	66
	Case Study 4.1. Epidemiologic Investigation	
	of Congestive Heart Failure .....	70
	Screening .....	72
	Case Study 4.2. Breast Cancer Screening .....	76
	Summary .....	80
	End-of-Chapter Case Exercises.....	80
	References.....	82
<b>Chapter 5.</b>	Healthcare Planning and Needs Assessment.....	85
	<i>Steven T. Fleming, F. Douglas Scutchfield, and Joel Lee</i>	
	Need and Demand .....	85
	Needs Assessment .....	87
	Community Needs Assessment .....	88
	Planning and Strategy.....	90
	Strategic Planning .....	91
	Other Categories of Planning .....	95
	Institutional Planning.....	96
	Case Study 5.1. Determining Bed Demand	
	for Cardiac Patients Aged 65–84.....	97
	Geographic or Service Area Markets .....	103
	Forecasting.....	104
	Marketing .....	105
	Community Health Planning.....	107

Human Resources Planning.....	112
Summary .....	115
End-of-Chapter Case Exercises .....	115
References.....	117
<b>Chapter 6. Quality of Care Measurement.....</b>	<b>121</b>
<i>Steven T. Fleming and Sarah Wackerbarth</i>	
Epidemiology and Quality .....	123
Rates and Surveillance .....	125
Case Study 6.1. MRSA Surveillance at University	
Hospital .....	127
Outcomes of Care—Complication Rates.....	129
Managed Care.....	132
Avoidable Hospitalizations .....	133
Quality Indicators .....	134
Case Study 6.2. Inpatient Quality of Care	
Indicators for Bluegrass Hospital .....	136
Total Quality Management.....	138
Summary .....	143
End-of-Chapter Case Exercises.....	144
References.....	146
<b>Chapter 7. Mortality and Risk Adjustment.....</b>	<b>149</b>
<i>Steven T. Fleming and F. Douglas Scutchfield</i>	
Measuring Mortality with Rates.....	152
Comparing Mortality Across Time, Place, and Person....	153
Standardization of Mortality Rates.....	158
Case Study 7.1. Age and Gender Adjustment in	
Two Managed Care Organizations.....	161
Risk-Adjusted Mortality Rates .....	163
Summary .....	168
End-of-Chapter Case Exercises.....	169
References.....	171
<b>Part II Epidemiology and Financial Management .....</b>	<b>175</b>
<b>Chapter 8. Epidemiology and Healthcare Financial</b>	
Management .....	177
<i>Teresa Waters and Karina Manz</i>	
The Traditional Disease-Based Approach to	
Medical Care .....	178

Moving Toward a Proactive Healthcare System .....	179
Building a True Health System: Patient-Centered Care and the Triple Aim .....	180
Population Health and the Social Determinants of Health .....	180
The Role of Epidemiology in Policies and Programs .....	181
Pay for Performance (P4P) .....	182
Case Study 8.1. HACRP Penalties .....	184
Other Healthcare Delivery and Payment Innovations .....	188
Shared Versus Full Risk Models .....	190
Other Major Healthcare Delivery System Changes .....	191
Case Study 8.2. Variation In Health Insurance Exchange Premiums .....	192
Monitoring Population Health Needs .....	195
Measuring Quality and Outcomes .....	196
Summary .....	200
End of Chapter Case Exercise .....	201
References .....	202
<b>Chapter 9. Cost-Effectiveness Analysis .....</b>	<b>207</b>
<i>Steven T. Fleming</i>	
Cost-Effectiveness Ratios .....	208
Cost-Effectiveness Model .....	208
Program Specification .....	209
Measuring Effectiveness .....	210
Quality-Adjusted Life Years .....	211
Biased Estimates .....	214
Measuring Costs .....	215
Cost-Benefit Analysis .....	219
Choosing Among Programs .....	220
Uncertainty .....	222
Case Study 9.1. Cost-Effectiveness Analysis of Bariatric Surgery .....	223
Summary .....	227
End-of-Chapter Case Exercises .....	227
References .....	229

<b>Part III Evidence-Based Management and Medicine.....</b>	<b>231</b>
<b>Chapter 10. Case–Control Studies .....</b>	<b>235</b>
<i>Steven T. Fleming and Steven R. Browning</i>	
History of Case–Control Studies .....	235
Selection of Cases and Controls.....	238
Exposure.....	240
Relative Risk in a Case–Control Study .....	241
Case Study 10.1. Diabetes and the Risk of Community-Acquired <i>Staphylococcus aureus</i> Bacteremia.....	245
Cross-Sectional Studies.....	248
Case–Control Study Advantages and Disadvantages .....	249
Summary .....	250
End-of-Chapter Case Exercises .....	251
References.....	253
<b>Chapter 11. Cohort Studies .....</b>	<b>257</b>
<i>Anna M. Kucharska-Newton, Steven T. Fleming,     and John N. Lewis</i>	
Types of Cohort Studies.....	259
Selection of Cohort Participants .....	261
Defining Exposures in Cohort Studies .....	263
Identifying and Classifying Outcomes in Cohort Studies .....	266
Measuring Outcomes in Cohort Studies .....	267
Relative Risk .....	269
Measures of Disease Burden .....	270
Case Study 11.1. Smoking, Heart Disease, and Lung Cancer .....	272
Survey Methodology .....	275
Advantages and Disadvantages of Cohort Studies .....	276
Summary .....	277
End of Chapter Case Exercises .....	278
References.....	280
<b>Chapter 12. Randomized Clinical Trials.....</b>	<b>283</b>
<i>Taylor G. Estep, Erin L. Abner, and Steven T. Fleming</i>	
Basic RCT Design.....	284
Crossover and Stepped Wedge Designs.....	286

	Factorial Design .....	287
	Case Study 12.1. Vitamin E and n-3 Polyunsaturated Fatty Acids After Myocardial Infarction.....	289
	Cluster Randomized Trials .....	292
	Randomization.....	294
	Blinding .....	298
	Sample Size and Power.....	300
	Ethical Considerations.....	301
	Summary .....	303
	End-of-Chapter Case Exercises.....	303
	References.....	306
<b>Chapter 13.</b>	Confounding, Effect Modification, and Bias .....	309
	<i>Steven T. Fleming</i>	
	Confounding .....	309
	Effect Modification .....	311
	Bias.....	313
	Case Study 13.1. Coffee and Pancreatic Cancer .....	313
	Case Study 13.2. Smoking and Low Birth Weight Newborns.....	319
	Summary .....	323
	End-of-Chapter Case Exercises.....	324
	References.....	325
<b>Chapter 14.</b>	Clinical Epidemiology and Decision Making.....	327
	<i>Kevin A. Pearce, Steven T. Fleming, and F. Douglas Scutchfield</i>	
	Experience and Tradition in Medical Practice.....	328
	The Evidence Base of Clinical Practice .....	329
	Criteria for Causality .....	331
	The Clinical Encounter .....	334
	Clinical-Encounter Vignette Part I: Making a Diagnosis for a Patient Presenting with Chest Pain....	335
	Clinical-Encounter Vignette Part II: Treatment Options for a Patient Diagnosed with GERD .....	339
	Prevention.....	341
	Clinical-Encounter Vignette Part III: Prevention and Control Strategies .....	343
	Cost-Effectiveness and Number Needed to Treat.....	346
	Clinical-Encounter Vignette Part IV: Family History and Number Needed to Treat .....	347
